Eight Crime Indicators

May 2025

Number of Occurrences for these 8 Crime Types

January 46 February 51 March 95
April 71 May 94

Crime Statistics Report Summary:

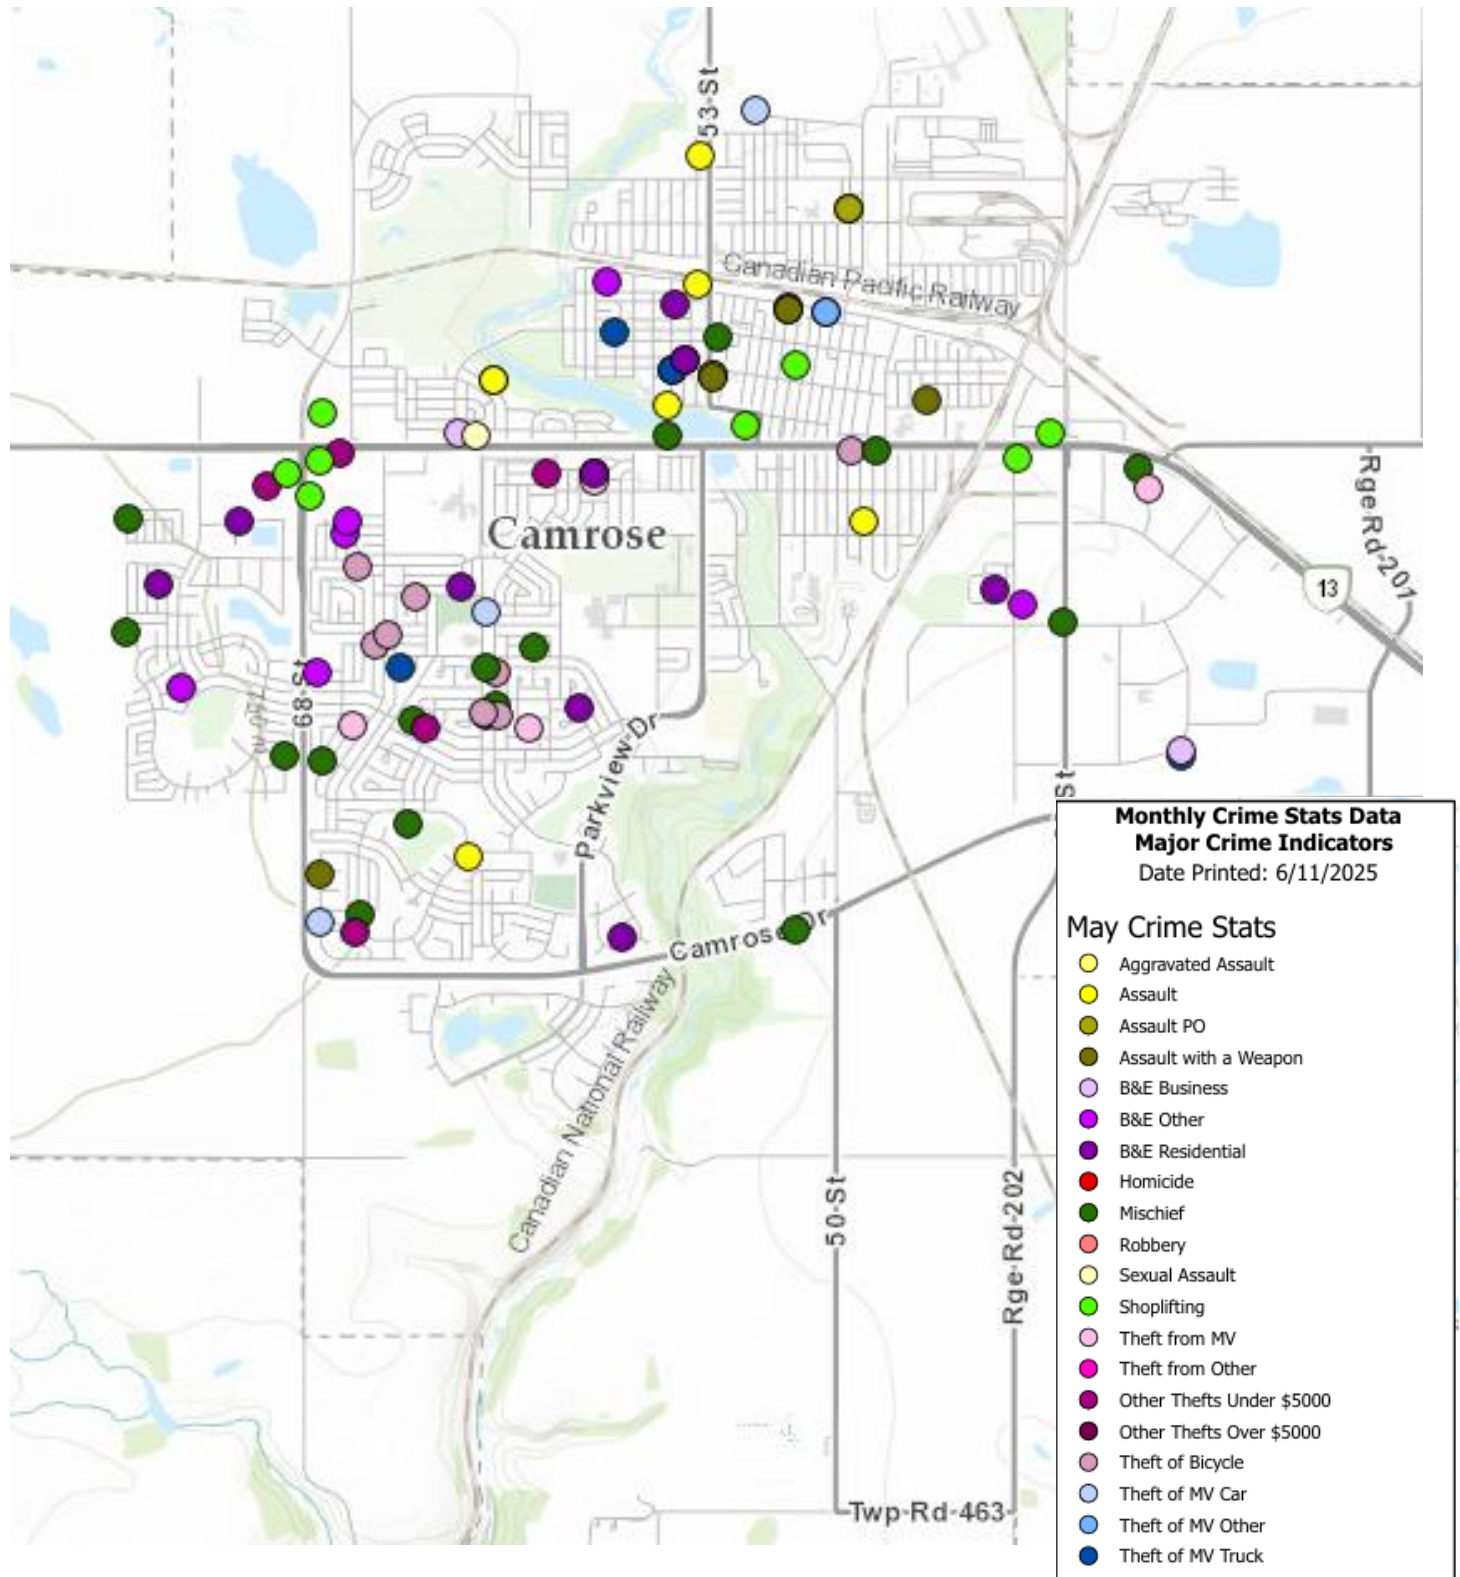

The combined total of the eight crime indicators showed a seasonal increase of 32% in May 2025, with 23 additional reported incidents compared to April. Despite this rise, the total of 92 occurrences remains slightly below the five-year average of 95 for the month of May.

In May 2025, the Break & Enter category doubled compared to April. A review revealed a crime pattern between May 12–19, during which four garage doors were left open overnight, leading to the theft of tools, copper wire and a bicycle. Additionally, in four of the reported occurrences, the suspect was known to the victim and entered the home to retrieve what they claimed was their own property. Notably, three Break & Enter incidents also involved the theft of a motor vehicle, which contributed to the increase in the Theft of Motor Vehicle category.

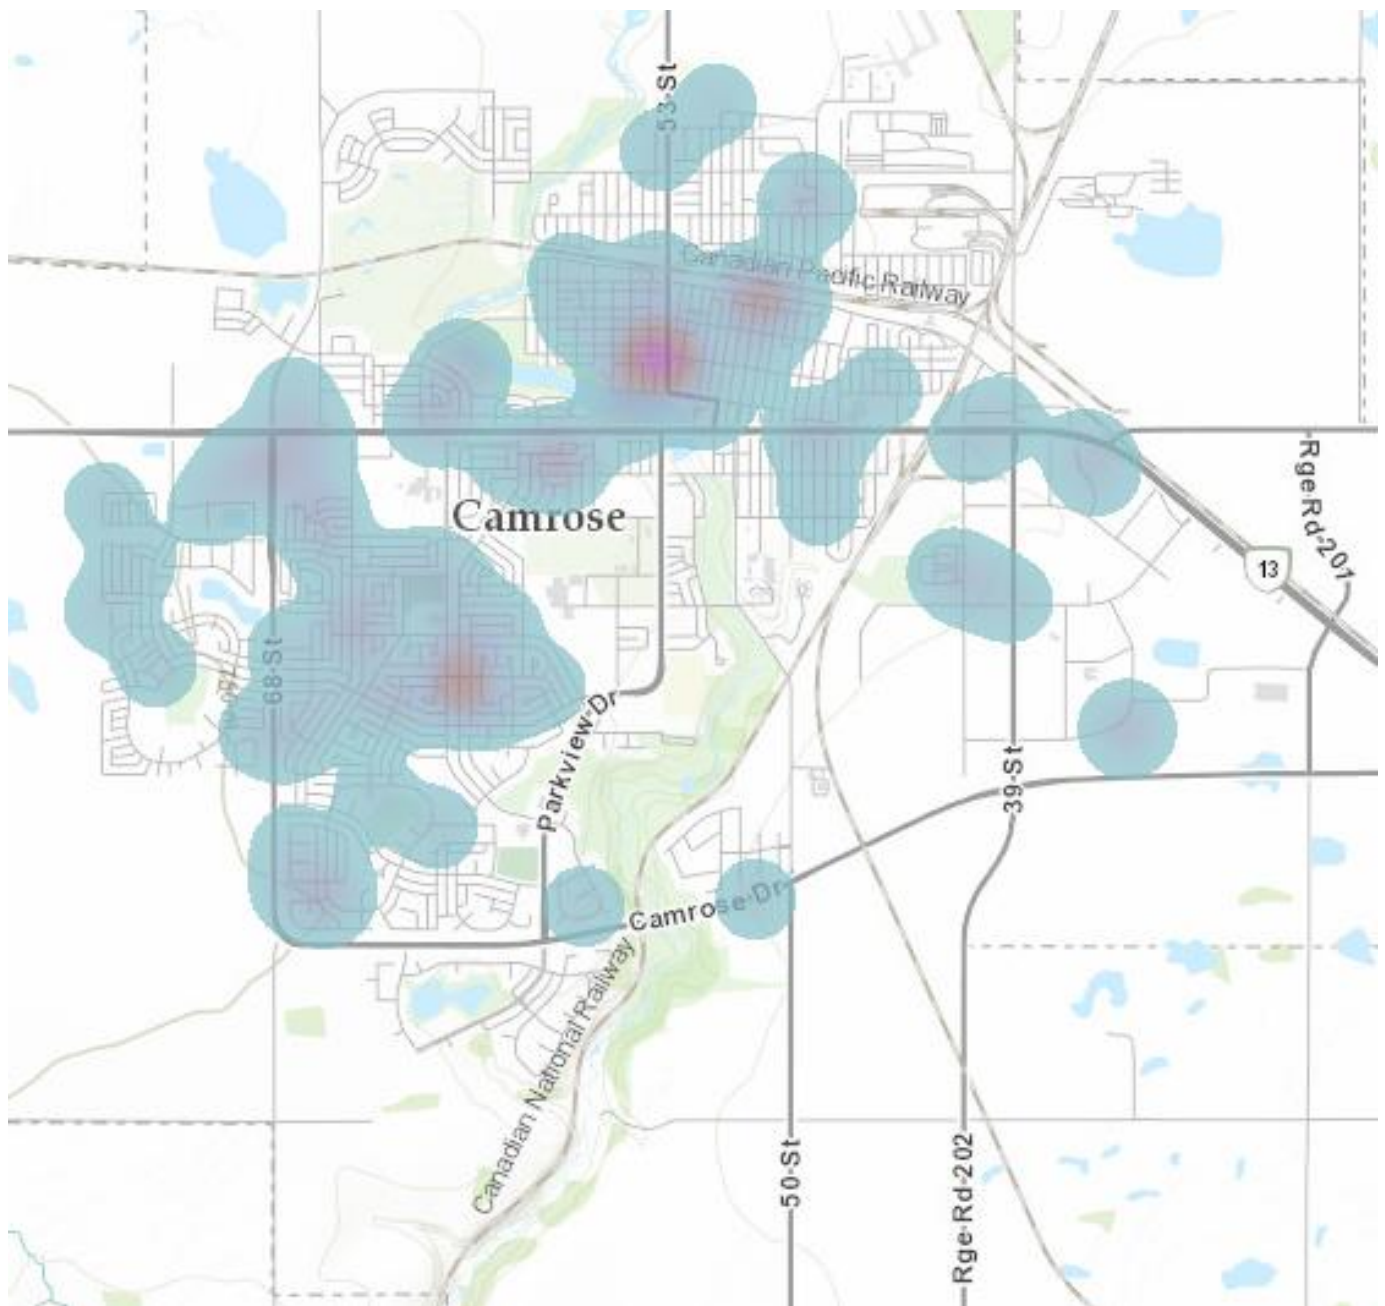

Mischief incidents also rose in May, with two of the reports directly linked to Break & Enter occurrences.

The Assault category experienced an increase as well. A closer review found that nine incidents involved familial or intimate partner violence, including four incidents involving one family and two incidents involving another, highlighting recurring familial conflict as a significant factor in these statistics.
