Number of Occurrences for these 8 Crime Types

January	46	February	51	March	95
April	71	May	94	June	99
July	87	August	93	September	40

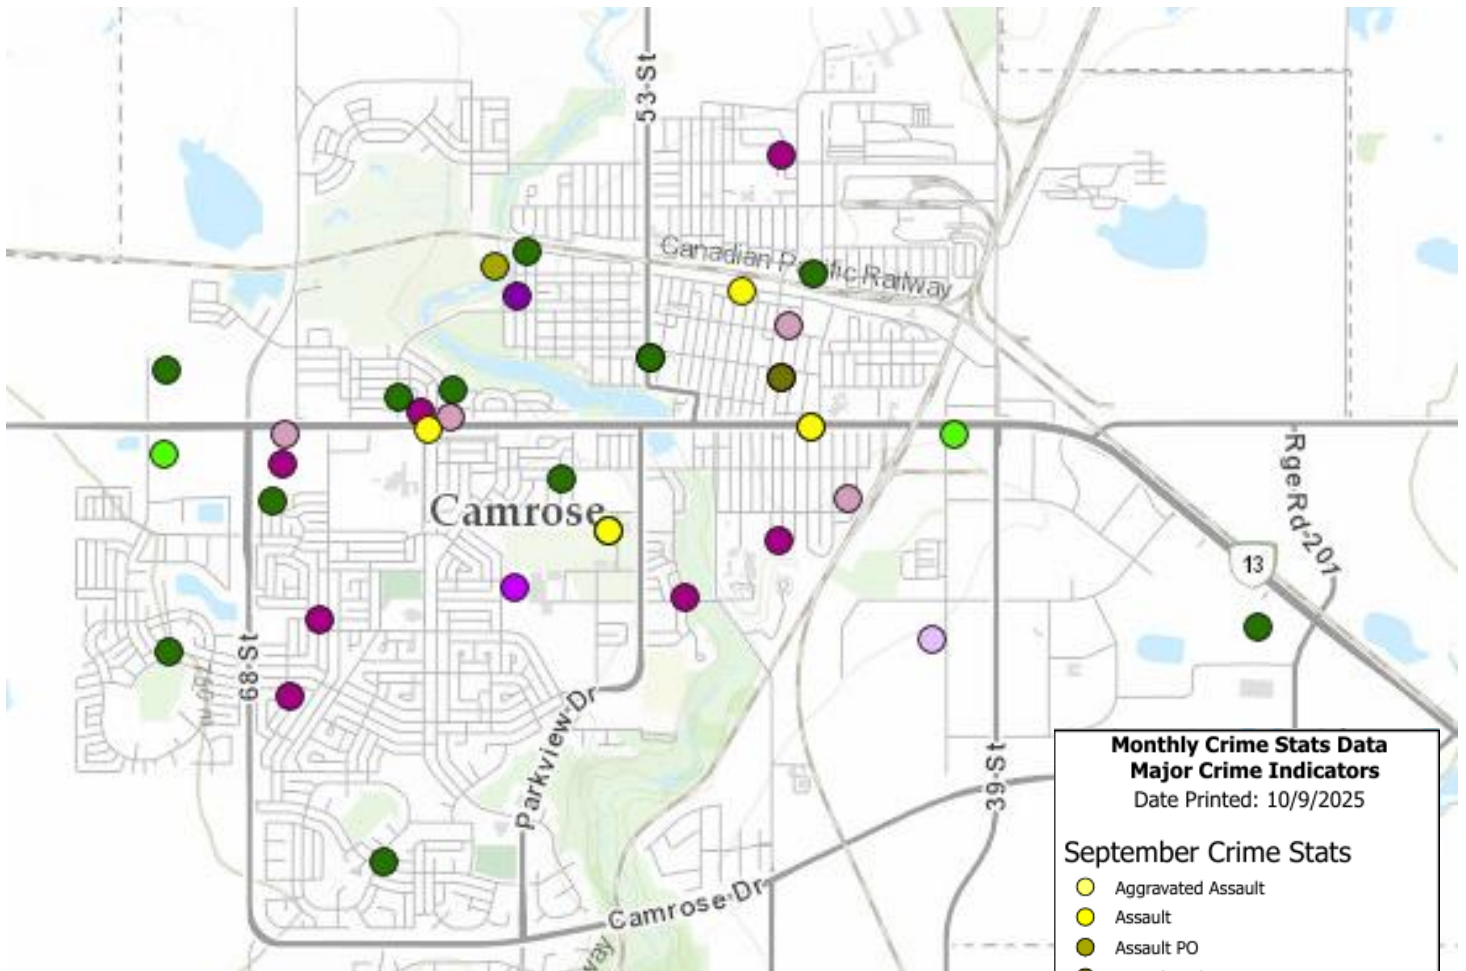

Crime Statistics Report Summary:

In September 2025, a total of 40 occurrences were reported across the eight crime indicators, representing an unprecedented low. This marks a 54% decrease compared to the five-year average for September, which stands at 87 occurrences.

The overall decline was primarily attributed to a significant reduction in property-related crimes. Property offences fell by 39% compared to the five-year average of 70 incidents. Specifically, substantial decreases were recorded in break and enters, thefts of motor vehicles, and theft under \$5,000. These categories showed reductions both in comparison to September 2024 and the five-year monthly average.

The downturn in these high-frequency property crimes is attributed to enforcement efforts, targeted patrols, offender management and community-based initiatives.
